

DAYBED

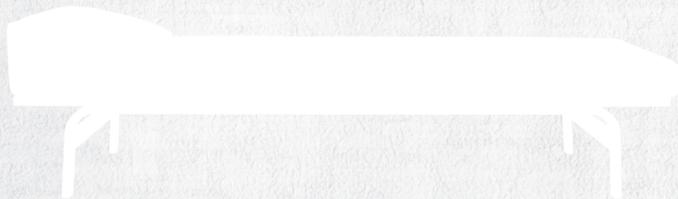

DAYBED

We all need to take a break at times. Maybe for a short nap, to rest our eyes or to browse through your favourite magazine for a few minutes. Our daybed is a smart and simply designed solution for all types of workplaces. It is both inviting and functional and offers wonderful relaxation for mind and body.

DESIGN & FUNCTION

The daybed has a functional and stylish design. It suits many different types of environments. It is steady and easy to get in and out of due to its stable beech frame. The design of the mattress and pillow makes it very comfortable to lay down on.

FUNCTIONS & OPTIONS

COMFORTABLE PILLOW

The comfortable pillow remains in place as it is attached to the mattress. It can also be folded backwards.

REMOVABLE FABRIC

The fabric in the mattress is removable and easy to keep clean. The pillow is available in a different fabric to that of the mattress, as an optional extra.

HIGH COMFORT

The comfortable mattress on the stable frame makes the daybed both comfortable and steady. You can stretch out both your legs and back and find a natural and relaxing position.
